

Your base for natural esthetics

Atlantis® BridgeBase

All the benefits of the patient-specific CustomBase Solution – now available for multiple unit cases. Cemented extraorally and with angulated screw access channels, conveniently place the finished restoration directly into your patient’s mouth.

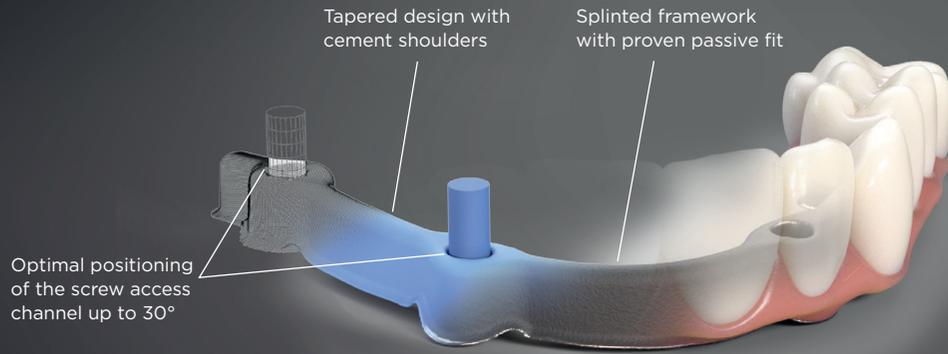

“With the strength of the Atlantis BridgeBase, the predictability of the process and esthetic advantage of zirconia – I always have confidence in a great result. I love how the Atlantis Core File makes changes or future repairs quick and straightforward”

Dr. Marcus Dagnelid, Sweden

Natural looks from advanced innovation

Compatible with Cercon ht ML and other CAD/CAM materials

Hidden metal framework for life-like translucency

World-class additive manufacturing in titanium

Regulatory clearance in all markets where Atlantis suprastructures are available.

325

Number of compatible interface connections for all major implant systems*

*Compatible interfaces can differ by country. Please check with your local Sales representative **Dentsply Sirona Survey 2019. Data on file.

Maximize value from your digital workflow

Predictability and long-term patient satisfaction are important goals for any implant treatment. Working digitally with Atlantis BridgeBase is another advantage to DS Signature workflows.

DIAGNOSIS + PLANNING

SURGERY + TEMPORIZATION

RESTORATION

#1 failure cause for multi-tooth replacement is chipping, followed by occlusion issues and missing passive fit.**

Working digitally fosters effective collaboration and convenience. But the digital benefits of the Atlantis BridgeBase with Core File don't end there...

"The Atlantis Core File allows me to start working immediately without waiting for the physical Atlantis BridgeBase to arrive. The efficient workflow boosts my productivity compared to a ceramic veneered bridge."

"The Atlantis BridgeBase enables me to deliver consistent results. So when a patient likes their new smile at the time of try-in, I can replicate the exact design in the final restoration."

Maik Peters, Aqua Dental Labs, Sweden

Place multiple-unit restorations with confidence

Order your Atlantis BridgeBase using Atlantis WebOrder. Open for service 24/7.
