Combinations of titanium bases and materials in the CEREC software 5.1.2

This overview indicates which combinations of titanium bases and materials can be selected in the CEREC software 5.1.2 for various regions. This is indicated by a check mark being set for the respective combination. Irrespective of this, individual titanium bases and materials may not be available.

All countries are divided into 7 regions. The following list indicates which table applies to your country. The details for Japan are not provided in this document.

Region 1:
