The little device
with a big impact

SureSmile® VPro™
High-Frequency Vibration Device

Help meet your treatment goals

SureSmile® VPro™ delivers gentle vibrations that help aligners fit properly.*

When used with your aligners for 5 minutes a day, your SureSmile VPro Device:

- **May reduce discomfort**^{1,2}
- **May reduce office visits**¹
- **May speed up treatment time by up to 50%**^{1,3}

Intended for use by the orthodontic patient during treatment with aligners. Rx only. See Instructions for Use for full Prescribing Information.

*Over not using the device.

Results worth smiling about

CASE EXAMPLES

Estimated treatment time: 19 months*
Actual treatment time: 9 months

Estimated treatment time: 19 months*
Actual treatment time: 6 months

Estimated treatment time: 12 to 14 months*
Actual treatment time: 5 months

Patient results may vary. Case examples courtesy of Dr David Boschken, Dr Bill Dischinger, and Dr David Boschken, respectively. Doctors are located in the US and may have been compensated for their participation.

*Estimated treatment times provided by treating clinician and calculated with 2-week aligner intervals. Cases may have been treated with an earlier VPro model featuring a variety of clear aligner systems. Case examples are from real patients. Individual results may vary and are not intended to represent or guarantee that anyone will achieve the same or similar results. See your treating dental professional for advice unique to you and your oral health.
